Announcement of an open position at the Faculty of Informatics, Vienna University of Technology, Austria

FULL PROFESSOR (TENURED)
of
COMPUTER ENGINEERING
(Dependable Systems)

The Vienna University of Technology invites applications for a Full Professor position (tenured) at the Faculty of Informatics. The successful candidate will have an outstanding research record in computer science, with primary expertise in at least one of the following sub-fields:

- Dependable Systems
- Real-time Systems
- Embedded Systems
- Cyber-physical Systems
- Model-based Design
- Safety and Security
- Hardware Architectures

Besides research, the duties of a full professor at the Vienna University of Technology include teaching (in English or German) graduate and undergraduate courses of the informatics curricula and contributing to the management of the institute and the faculty.

The open position and its research group are affiliated with the Institute of Computer Engineering. The professor is expected to maintain the institute’s leading international role in research. The position becomes vacant on the retirement of the present holder, Professor H. Kopetz, on 30 September 2011.

The Faculty of Informatics is one of eight faculties at the Vienna University of Technology (TU Vienna). The TU Vienna is among the most successful technical universities in Europe and it is Austria’s largest scientific-technical research and educational institution. The Faculty of Informatics plays an active role in national and international research and has an excellent reputation. The main areas of research include Computational Intelligence, Computer Engineering, Distributed and Parallel Systems, Media Informatics and Visual Computing as well as Business Informatics.

APPLICANTS ARE EXPECTED TO HAVE THE FOLLOWING QUALIFICATIONS

Essential
- PhD or doctoral degree.
- Post-doctoral experience at a university or other research institution.
- An outstanding research and publication record.
- An excellent reputation as an active member of the international scientific community.

Desirable
- Experience in acquisition and management of major research projects.
- Didactic skills and leadership abilities.
- Experience in university teaching.

Additional industrial experience and/or collaborations are considered advantageous.
THE FACULTY OF INFORMATICS OFFERS

- Excellent working conditions in an attractive research environment.
- An attractive salary, associated with a retirement fund.
- Additional financial research support during the first years (equipment etc.).
- Support for relocation to Vienna (if required).
- A position in a city with an exceptional high quality of living.

GENERAL INFORMATION

For information about

APPLICATION

The Vienna University of Technology is committed to increase female employment in leading scientific positions. Female applicants are explicitly encouraged to apply. Preference will be given when equally qualified. People with special needs are equally encouraged to apply.

Applications have to include
- A detailed curriculum vitae.
- A list of publications,
- Copies of the applicant's five most important publications related to the position.
- A positioning statement, describing the applicant's vision on how to position and advance the field within the Faculty of Informatics in the areas of research and teaching.

Applications should be sent to the Dean of the Faculty of Informatics (Prof. Dr. Gerald Steinhardt), Erzherzog-Johann-Platz 1/180, A-1040 Vienna, Austria. The application package should also be sent in digital form (a single pdf on a CD-ROM).

Application Deadline: April 10, 2011
